Redmond-Based Voorhies & Associates Celebrates One Year of Helping Oregon's Senior Living Communities

FOR IMMEDIATE RELEASE

Redmond, Oregon, September 4, 2018

Redmond-based Voorhies & Associates Senior Living Management and Consulting celebrates its first anniversary in September. When Raeann Voorhies started Voorhies & Associates one year ago, it was a one-woman operation with Raeann serving as owner, operator, and nurse consultant. Voorhies & Associates is now a team of 25 community-based care experts providing interim coverage, quality assurance, trainings, preventative services, and state-mandated nurse consulting.

In the past year, Voorhies & Associates' team of nurses, caregivers, operations specialists, and administrators has partnered with 59 senior living and assisted living communities including properties in Redmond, Bend, Sisters, Prineville, and Madras. Voorhies & Associates' most challenging work involves assisting properties that have received substandard inspections by the Oregon Department of Human Services. As of last month, Voorhies & Associates has provided consulting services for 14 such properties. The V&A team strives to solve problems quickly, correctly, and compassionately and prides itself on moving communities forward, building the fundamentals, and having fun along the way.

"When we are in the field helping facilities to regain regulatory compliance, it's all about returning to the fundamentals. Just as in sports, the basics must be mastered before we can focus on the details of community-based care," Raeann Voorhies explains.

SENIOR LIVING MANAGEMENT & CONSULTING

Voorhies knew that there was a great need for third party assistance in the industry when she left her corporate job at a large, senior living company last year but admits Voorhies & Associates' growth has taken her by surprise.

Voorhies says, "We went from one to fifteen nurses within months and quickly realized administrative expertise was equally as needed. Today, we have a team of 25 team members working across the state in many rural areas as well as urban communities." For Voorhies and her team, all of the hard work over the past year has been worth it. "It feels so rewarding to know that we are offering a service to better the lives of elders residing in Oregon's senior living communities."

ONE YEAR BY THE NUMBERS

59 community-based care buildings served

14 mandated properties assisted

135 citations cleared on the first visit by OR Department of Human Services

13 nurses, 8 operations specialists/administrators, and 4 support staff
